SYGIC DRIVE AND TRUCK

ALL MODELS AVAILABLE
WITH SYGIC'S FULL EUROPE
(44 COUNTRIES) MAPS

SYGIC DRIVE

NAVIGATION FOR CARS

NO HIDDEN FEES

With pre-installed maps, they are always with you on your PND, with no hidden costs or data plans, with no additional subscription fees for maps.

PREMIUM MAP COVERAGE

Minimize the risk of driving a route where the road layout has been changed. In many countries/territories the coverage of the road network has been noticeably increased in recent years.

SAFETY ON THE ROAD

Everything you need to drive with confidence using our advance warnings about railway crossings, fixed speed cameras and speed limit alerts on the road.

PROFESSIONAL GUIDANCE

Intuitive design, easy to read as you drive, crystal-clear spoken voice instructions and route guidance. Plus, advance lane guidance with up-to-date signpost information, fast and powerful address search that accepts postal codes.

POINTS OF INTEREST

Millions of points of interest* loaded with the app to help you find anything from restaurants to airports.

SPEAK THE LINGO

Set the software to your preferred language for speech and text. There are more than 20 languages to choose from.

SYGIC TRUCK

NAVIGATION FOR TRUCKS

Excellent for every vehicle over weight 3.5 T. Settings for truck parameters (max. speed, weight, length, width, height, load restrictions) and route calculation with truck parameters.

NO HIDDEN FEES

With pre-installed maps, they are always with you on your PND, with no hidden costs or data plans, with no additional subscription fees for maps.

SYGIC Aura

REAL **3D**
NAVIGATION
FOR **44 COUNTRIES**
IN EUROPE

PRE-INSTALLED ENHANCED 3D MAPS

Sygic Aura transforms maps into a real 3D product with realistic landmarks, buildings and elevated terrain. By combining full 3D / 2D city models and the worldwide elevation with a full set of navigation attributes Sygic Aura makes it easy for users to get their bearing and navigate to any destination.

PROFESSIONAL CAR NAVIGATION FOR PND'S

Sygic Aura boasts fast and flexible route calculation and features that ensure safety and comfort. Users can rely on advanced functionality like lane assistant, signposts, speed camera database, speed warnings, navigation in tunnels and much more. RDS-TMC traffic data is fully integrated. And on top of their professional car navigation Sygic Aura provide full pedestrian instructions as well.

QUICK ACCESS TO INFORMATION

Sygic Aura provides users with information related to their position: city guides, maps, opening hours, phone numbers and links to websites, nearest stops of public transport as well as extracts from Wikipedia. It is easy to grab info on bars, restaurants and night clubs, including pictures. Thousands of POIs in comprehensive categories are easy to see on map or find in search menu.

DRIVE TO™ CAR NAVIGATION FEATURE INCLUDES:

- Door-to-door navigation with voice-guided real-time driving instructions in more than 20 languages ("After one hundred meters, turn left, then immediately turn right")
- Speed limits on roads and thousands of safety cameras pre-installed
- Real-time voice-guided manoeuvres with distance to direction or full junction list
- Distance to destination with estimated time of arrival
- Lane assistant to know which lane to take on roads
- Highway symbols to know which city and driving information to follow up on symbols ahead
- Real time traffic information approved by traffic content providers
