# SYGIC GPS NAVIGATION FOR ANDROID

REAL 3D NAVIGATION FOR 44 COUNTRIES IN EUROPE

## ENHANCED 3D MAPS

Sygic GPS Navigation transforms maps into a real 3D product with realistic landmarks, buildings and elevated terrain. By combining full 3D / 2D city models and the worldwide elevation with a full set of navigation attributes Sygic GPS Navigation makes it easy for users to get their bearing and navigate to any destination.

## PROFESSIONAL NAVIGATION FOR ANDROID

Sygic GPS Navigation boasts fast and flexible route calculation and features that ensure safety and comfort. Users can rely on advanced functionality like Dynamic Lane Guidance™, signposts, speed camera database, speed warnings, navigation in tunnels and much more. And on top of professional car navigation Sygic GPS Navigation provides also full pedestrian instructions.

## QUICK ACCESS TO INFORMATION

Sygic GPS Navigation provides users with information related to their position: maps, phone numbers and links to websites, nearest stops of public transport, weather. It is easy to check out info about bars, restaurants and night clubs, including pictures. Thousands of POIs in comprehensive categories are easy to see on map or find in search menu. Find statistics for all your outdoor activities as well as business trips, including distances, altitudes, time and speed in Travelbook.

## Drive To™ car navigation feature includes

- Door-to-door navigation with voice-guided real-time driving instructions in more than 20 languages ("After one hundred meters, turn left, then immediately turn right")
- Speed limits on roads (with exact distance to where changes take effect) and thousands of safety cameras pre-installed
- Real-time voice-guided maneuvers with distance to direction or full junction list
- Distance to destination with estimated time of arrival
- Dynamic Lane Guidance™ to know which lane to take on roads
- Highway symbols to know which city and driving information to follow up on symbols ahead
- Real-Time Traffic to save you time and fuel and let you know what lies ahead\*
- Destination and location sharing even on social networks
- Google Local Search™
- Search destination directly with street name without entering city name
- Quick guidance to nearest hospital, police station, pharmacy or gas station with "Where am I" feature

\* Available separately on <http://www.sygic.com/en/android:extras>

ENTERTAINMENT MEETS TECHNOLOGY  
LIKE YOU **NEVER IMAGINED BEFORE.**

**WAYTEQ**

# LIBRA+SYGIC

### USE THE LATEST TECHNOLOGY. GO ANDROID.

Images come to life on the 3.5" capacitive screen. Take photos and videos with the built-in 3.2 Megapixel camera and share them via Bluetooth, WiFi or 3G connection.

For increasing user experience, downloadable apps and games can use sensors supported by Android system, so your Libra can be used as a compass or three-dimensional joystick.

### SYGIC GPS NAVIGATION (OPTIONAL)

You will always know where you are, where to find restaurant, ATM or gas station near to you with Sygic GPS Navigation and the built-in GPS-receiver.

And lots more: real 3D navigation experience, social network functions, weather, traffic information etc. All these features to help you reach your destination.

- Photo slideshow: JPG, BMP, PNG

# WAYTEQ E-70 PORTABLE PLAYER

## VIEW ALL YOUR DIGITAL MEDIA WITH WAYTEQ E-70.

It's more than a simple media player. E-book reader function supports several digital document formats, beside this you can also watch videos up to HD resolution, listen to music, view images or listen to radio.

E-book reading and watching video is comfortable on the 7" LCD. You can easily take it with you on your travel, so you can enjoy watching favorite videos, images and documents or playing your favorite music even in your hotel room.

Take pictures on the holiday and right after the shots put the memory card into E-70, so you can watch them on the larger screen.

**MORE** CAPABLE THAN  
**YOU** EVER THOUGHT  
POSSIBLE!
